Skills

Technical Skills: Android, Kotlin, C/C++, Python, HTML, CSS, JavaScript, MySQL, Oracle, Azure

Additional Skills: Working with Git, Using Bitbucket, Jira, GitHub, Well versed with Linux, Windows and Mac

Soft Skills: Excellent Communication, Time Management, Result Oriented Mindset, Leadership Quality

Work Experience

Siemens Healthineers

SOFTWARE DEVELOPER

2022 - Present

- Designed and implemented **mobile-first, responsive UI features** using **Android SDK, Kotlin**, and **Coroutines**, ensuring optimal performance and an enhanced user experience.
- Engineered **RESTful API integrations** with robust error handling and data synchronization, leveraging **XML/JSON parsing** for deep platform integration.
- Incorporated **cloud messaging APIs** to deliver push notifications for system updates and operational alerts.
- Developed **20+ features** adhering to Android UI design principles and best practices, including **threading, offline storage**, and **SQLite database**.
- Integrated Azure DevOps for continuous integration and deployment (CI/CD) pipelines, ensuring fast and reliable software delivery.
- Worked with **Azure Active Directory** to manage access control and authentication for cloud-based services.
- **Designed & implemented 20+** software features for the **CiosFit X-ray machine** using **QT/QML and C++**, improving functionality and user experience.
- Enhanced **system performance by 30%** through code optimization for microcontrollers and processors.
- Automated **10+ user interface tasks**, reducing manual intervention by **40%**, using **Arduino IDE, Python**, and **shell scripting**.
- Resolved **15+ critical release-blocking defects** and delivered **last-minute requirements**, ensuring timely delivery of high-quality software.
- Conducted a comprehensive **codebase cleanup & refactor** for the CiosFit system, increasing **code maintainability by 50%**.
- Developed **15+ test automation scripts** and integrated best development practices for high-quality deliverables.
- Secured the **1st place** in an internal coding competition, showcasing exceptional technical expertise.
- Proficient in **clean coding, design patterns, SOLID principles**, and **refactoring techniques**.

Cognizant

ANDROID DEVELOPER

2021 - 2022

- Delivered **20+ high-quality Android features** in a **fast-paced agile environment**, adhering to best development practices.
- Achieved **99.9% crash-free rate** by leveraging tools like **Firebase Crashlytics** and implementing robust error-handling techniques.
- Built **10+ user-friendly UIs**, aligning with Android design principles and best practices, enhancing user experience by **25%**.
- Developed Android applications using Kotlin with expertise in **MVVM architecture, LiveData, Dagger2**, and **RxJava**, ensuring scalability and performance.
- Optimized API integration with **RESTful services** and **Retrofit**, improving data synchronization by **30%**.
- Implemented **push notifications and deep links** using **Firebase Cloud Messaging**, increasing user engagement by **15%**.

Projects

NOTES APPLICATION

Android, Kotlin, MVVM, LiveData, Jetpack, DataBinding, Retrofit,

- Developed a note-taking application for Android using **MVVM architecture, DataBinding, LiveData, RecyclerView**, and **Room Database**.
- Implemented **CRUD operations** (Create, Read, Update, Delete) for managing notes efficiently.
- Integrated **Room Database** for local data storage and **LiveData** for real-time UI updates.
- Used **RecyclerView** for displaying the list of notes, with seamless navigation and interactions.
- Followed Agile methodology for development, ensuring timely delivery and iterative improvements.
- Delivered a robust and scalable solution by adhering to clean code principles and best practices in Android development.

E-COMMERCE APPLICATION

Android, Kotlin, Firebase, MVVM, Retrofit, SQLite DB

- Developed an e-commerce app for a bakery shop using **Agile methodology**.
- Implemented key features such as **Activities, Fragments, Navigation Drawer, RecyclerView, LiveData, SQLite DB, Retrofit**, and **MVVM architecture**.
- Integrated **Firebase Crashlytics, Analytics**, and **Cloud Messaging** for crash reporting, user insights, and push notifications.
- Delivered features successfully through testing and timely delivery, while managing pressure with a strong sense of ownership.

FOUNDER & LEAD DEVELOPER | WORDDOODLES

HTML, CSS, JavaScript,

- Founded and lead a team of 3 developers, each responsible for different website functionalities.

- Designed and developed the website using **HTML**, **CSS**, and **JavaScript**, ensuring a responsive and visually appealing user interface across devices.
- Utilized **WordPress** for efficient content management, incorporating **custom themes** and **plugins** for enhanced functionality.
- Improved website visibility by integrating **SEO tools** such as **Rank Math** and optimizing on-page elements.
- Used **Azure DevOps** to manage project tasks, set up CI/CD pipelines, and streamline deployments.
- Leveraged **Google Analytics** for performance tracking and **Google AdSense** for revenue generation through ad placements.
- Implemented **CodeGuard** for regular backups and security monitoring, ensuring data integrity and website reliability.
- Guided the overall content strategy, fostering audience engagement and consistent growth.
- Delivered a visually appealing and user-friendly interface with a focus on providing key information at a glance, ensuring an enhanced user experience.

3D ANDROID GAME

Android, C/C++, Unity 3D, Visual Studio Code

- Developed the 3D adventure game **Cubi Cube** following **Agile methodology**, where players must reach a certain distance while avoiding obstacles to clear levels.
- Published the game on the **Google Play Store**.
- Used **Visual Studio** as the IDE for development, incorporating **C/C++** and **Unity 3D** for game mechanics and graphics.
- Responsible for implementing new features, maintaining existing ones, and fixing bugs.
- Conducted thorough testing and successfully delivered updates and improvements.
